Dunlap Offers a Reward.

William Dunlap, the blind man of Wm. Penn, called at the HERALD office this afternoon and authorized the insertion of an advertisement offering a reward of \$100 for information leading to the detection of his wife and her lover. Dunlap, the couple who eloped a day or so ago and the particulars of which appeared in these columns yesterday. The article caused much comment, as it was not generally known that an elopement had taken place in the quiet hamlet of Wm. Penn until the facts were made public. Mr. Dunlap looks at the matter in a philosophical manner, and thinks Birkett is responsible for his wife's departure, the man's influence having gotten the better of the woman's good judgment. It is very evident that if Mr. Dunlap succeeds in locating the elopers he will make it very uncomfortable for Birkett at least.

Mr. Waters' Success.

The HERALD is in receipt of a letter from George B. Waters, leaving the postmark Madison, Me., in which he says he has a company of his own, "Pat Maloney's New Fresh Visitors," in which Mr. Waters and his wife assume the leading roles. The company is under the direction of Frank W. Nason, late manager of the Casino, Boston. They began their tour last December and in January Mr. Waters was taken sick with la grippe and remained at his home until last March. They played at Baltimore, Philadelphia, New York and Boston to good houses. They are now playing the mountain resorts in New Hampshire, Vermont and Maine, and during the summer will storm Nova Scotia and the Provinces. Mr. Waters' Shenandoah admirers will be pleased to hear of his success.

INDUSTRIAL MOVEMENTS.

Testing Compressed Air Apparatus at Shenandoah City Colliery.

MULES WILL SOON BE OUSTED!

Arrangements Made For a Final Test in the Presence of Officials To-morrow—The Work on the Artificial Ice Plant is Being Pushed Rapidly.

Two important local industrial changes are about to be instituted, one relating to mining operations and the other to the local ice production.

The first bears with importance upon the system of haulage in the Shenandoah City colliery. Within a short time much of the mule haulage at that colliery will be done away with and compressed air haulage will be used to haul cars to and from the bottom of the shaft.

The project has been under way for several months and has now almost reached the stage of completion. It has involved great expense and labor, but the owners look to big profit by a saving of future expenses and more rapid and reliable haulage.

The locomotives to be used are from the Baldwin Locomotive Works, Philadelphia. One is complete and was given a test under low pressure this afternoon. The other engine has not been fully put together, but will be in a few days. The pipe line leading from the compressors, which are to supply the air for the locomotives, to the shaft where the cars are to be hauled, is not yet complete, but will be ready for an official test which is to be made at the colliery to-morrow, when officials of the P. & E. C. & I. Co. and the Baldwin Locomotive Works will be present. The result of this test will determine, to a large extent, the time when the mules will be set aside to make room for the instruments of haulage that consume air instead of hay and oats.

The two new compressors at the Kohinor colliery are in operation. The supplied compressors are smaller size and give much better satisfaction. There are now four large compressors in operation at this colliery and all demands are fully met.

THE ICE PLANT.

The ice industry referred to in the artificial ice plant now being constructed near the red bridge, Mr. M. Burke, Esq., today received the charter for the company, which is to be known as "The People's Artificial Ice Company of Shenandoah."

The company has a capital of \$20,000, there being 400 shares at \$50 each. The stockholders and officers of the company are: Christ, Schmidt, president; Samuel G. Roberts, vice president and manager; Edward B. Foley, secretary; Frederick Keithan, treasurer; M. M. Burke, Esq., solicitor; William D. Chimelewski, John W. Weeks and William Snyder.

The company has erected a brick building and frame stable on its property near the red bridge and machinery of the most modern kind for the manufacture of artificial ice is being placed in position under the supervision of Mr. Roberts, the manager. The company expects to have the plant in operation by June 1st. It is proposed to manufacture ice for the local trade and shipments. The plant will be kept in operation all seasons and during the summer from 12 to 20 men will be employed. Should the trade be brisk, the plant and working force will be increased.

POTTSVILLE NEWS.

Happenings in Court and Elsewhere at the County Seat.

Pottsville, May 10.—One of the reasons why court was adjourned so early in the week was that John F. Whalen, chief counsel in a great many cases, was unable to appear owing to the death of his brother-in-law. Another source of delay was the non-appearance of prosecutors, defendants and witnesses and the failure of officers to locate them. Probably the late Grand Jury has secured most of the prosecutors out of the law business. Many of these cases will be not proceed or dismissed at the cost of those responsible for the delay.

CRIMINAL COURT.

Anthony Kuckles and Matt Skatches were found not guilty on one charge of assault and battery, and the case was put on the prosecutor Anthony Cuhilis, but Skatches was found guilty of assault and battery on oath of John Jettus, and Judge Marr gave him \$5 fine and the costs. Skatches was acquitted of a charge of larceny of two pillow slips preferred by Jettus and the jury also put the costs on Jettus. Anthony Kuckles, one of the defendants on the assault and battery cases, did not appear at the trial, having run away from justice.

The case against Joseph Cuhilis, assault, &c., oath of Wm. Sharp, No. 220 March term, was not pressed; county for costs. This was a Meadood suit.

The program for the occasion was an interesting and pleasing one. It consisted of photograph selections under the direction of Charles Giesy, recitations by Lewis Lehe and M. H. Kohler, and addresses by H. E. Deane, Evan J. Daxler and A. L. Lantini. Refreshments in the nature of sandwiches, lemonade, ice cream and cigars were generously served. G. Meade Peters had supervision of the collation and the service was in accordance with his usual excellent style. L. A. Baumbarger was master of ceremonies. The procession of 300 little girls, all dressed in white, was a beautiful feature of the service. It was headed by Rev. Joseph and Peter McCullough, of Girardville; Rev. Dooley, of Mahanoy Place; and the Rev. Corcoran, of town. The sermon was preached by Rev. (Lentzen), of Ashland, and was eagerly listened to by every auditor.

When he went to a fruit stand to purchase apples, he discovered his loss.

THE STRIKE AT BUFFALO.

Association Willing to Make Radical Concessions to the Scoopers.

THE STRIKERS REFUSE TERMS!

They Will Have Nothing to do With the Work Unless Mr. Connors is Relieved of the Contract Altogether.

Buffalo, May 10.—While the strike situation remains unchanged, there is still hope for a speedy settlement of the trouble. The grain shovellers still persist that nothing will satisfy them except abolition of contractors and middlemen. They assert that they can furnish sufficient bonds to guarantee that they themselves can handle all of the grain which is transported by the Lake Carriers' association.

Today it was learned that the Lake Carriers' association and Contractor Connors are willing to make concessions of a radical kind to the scoopers, even more liberal than any yet announced.

At a last meeting of the grain shovellers last night President McMahon made a report of the doings of the conference committee. He stated that the Lake Carriers' association had agreed to accept all of the terms contained in the proposition of the grain shovellers, with the exception of the abrogation of the contract which Mr. Connors held. They had agreed to take the entire supervision of the work out of Mr. Connors' hands, to let Bishop Quigley appoint a superintendent, to give the power to the grain shovellers of appointing their own boss scoopers, and they agreed to the appointment of a local board of arbitration. Mr. Connors would be contractor in name only, and would have nothing to do with the men or the work, with the exception of drawing his five cents per 1,000 bushels.

President McMahon announced that the committee of the strikers had refused to accept these terms, and had declared that they would have nothing to do with the work unless Mr. Connors was relieved of the contract altogether.

Planned a Horrible Deed.

John M. Neillinger, a breaker builder who lives at Jalepps, near Pottsville, made late in his house last night brandishing a butcher knife, seized his wife, and pinioning her arms drew the blade of the knife across her throat. He then rushed out of the house to the home of his sister, Mrs. John Heiler, next door. Here he had a desperate struggle with his sister during which the lamp was overturned, and the woman escaped from the house, screaming for help. Neillinger then turned the knife upon himself, inflicting wounds which will probably prove fatal. He stood in the door and defied the crowd to come and take him. His sister, after persuading her brother at long range, finally induced him to lay down the knife, and he was taken in charge by policemen. His wife will recover. Neillinger is rather deaf and for some time has been morose. Something pruned on his mind, rendering him temporarily insane. He was taken to the county jail last night and this morning was removed to the almshouse hospital where he can be given better care.

Boy Kidnapped.

About a week ago a neatly dressed couple alighted from a railroad train at Tanasqua and registered at one of the hotels as Mr. and Mrs. Robert Jekyn. They were subsequently seen in close conversation with the adopted eight-year-old son of Charles Christ. A day or two afterwards the boy was missing, and no trace of him has since been found. At the same time the couple disappeared, leaving behind an unpaid board bill. When questioned, about the couple speaking to him, the boy said they were his uncle and aunt from Philadelphia, but this is doubted. Mr. Christ traced them to Lakeside, where Proprietor Yost said a couple and a boy answering the description boarded a coal train for Bloomsburg, but all further trace of them was lost.

The two rings are occupied by trained animals, actors of surprising interest; prominent among them are the performing elephants. They appear simultaneously in two rings. These veritable moving mountains of flesh present a most wonderful and unique display; manifesting remarkable precision and understanding in their accomplishments. An exhibition of animal intelligence that gives great credit to their trainers, and is a source of wonder to all beholders.
